

Technical drawing of a mechanical part, showing multiple views and dimensions:

- Top View:** A rectangular part with a central rectangular cutout. The overall width is $L-10$. The central cutout has a width of $H-10$. The part has rounded corners and a central dashed line indicating symmetry.
- Front View (Left):** A cross-sectional view showing the part's profile. Dimensions include:
 - Overall height: 62.5
 - Base width: 66
 - Internal width: 14
 - Internal height: 27
 - Internal width: 64
 - Internal height: 72
- Front View (Right):** A cross-sectional view showing the part's profile with a 40° angle indicated.
- Side View (Bottom):** A cross-sectional view showing the part's profile with a 75° angle indicated. Dimensions include:
 - Overall width: b
 - Internal width: 25
 - Internal height: 32
 - Internal height: 30
